### What I Am

Dynamic professional with experience supporting managers, project teams, and ecommerce operations to ensure business success. Passionate programmer with an aptitude for the MEAN stack and desire to turn my skills into a job opportunity.

### What I've Learned

- PortlandCodeSchool 2015  
MEAN stack immersion course
- Cal Poly SLO 2006-2011  
BA: International Business  
Minor: Economics & Finance

### What I've Done

#### ReverseMortgageLA.com 2013-2015

Position: Business Operations Manager

- Managed 100+ client-to-lender relationships
- Increased conversion rate through ad purchases, blog posts, and user subscriptions
- Expanded client base through user interaction

#### CBRE 2012-2013

Position: Accountant

- Governed Eastern Regional payment processing
- Resolved all company-to-client discrepancies
- Audited 300+ invoices per day with accuracy

#### Swirl.com 2011-2012

Position: Inventory Analyst

- Managed 4000+ SKU units per week
- Provided daily communication with our warehouse
- Organized holiday sale launch with 20+ brands
- Regulated pipeline for all consignment sales

#### UCLA Health Systems 2010-2011

Position: Assistant to Project Managers

- Developed flow charts to monitor project status
- Controlled our \$7 million financial budget
- Coordinated submittal/approval process

#### IDS Group 2009-2010

Position: Assistant to Project Managers

- Analyzed outstanding retrofit projects
- Organized engineer approvals through effective communication
- Compiled financial data for specific projects

"Nothing can stop a person with the right mental attitude from achieving their goal."
